

Attributable to an NSO Spokesperson:

"Millions of people around the world are sleeping well at night, and safely walking in the streets, thanks to Pegasus and similar technologies which help intelligence agencies and law enforcement agencies around the world to prevent and investigate crime, terrorism, and pedophilia rings that are hiding under the umbrella of End-to-End encryption apps.

"NSO, together with many of the other cyber intelligence companies in the world, provides cyber intelligence tools for governments BECAUSE law enforcement agencies around the world are in the dark and there's no regulatory solution that allows them to monitor malicious acts on instant messaging and social media.

"We reiterate: NSO does not operate the technology, nor do we have visibility to the data collected. Our products, sold to vetted foreign governments, cannot be used to conduct cybersurveillance within the United States, and no foreign customer has ever been granted technology that would enable them to access phones with U.S. numbers. It is simply technologically impossible.

"We are doing our best to help creating a safer world.

"Does Mr. Cathcrat's have other alternatives that enables law enforcement and intelligence agencies to legally detect and prevent malicious acts of pedophiles, terrorists and criminals using End to End encryption platforms?

"If so, we would be happy to hear."

DISSEMINATED BY MERCURY PUBLIC AFFAIRS, LLC, A REGISTERED FOREIGN AGENT, ON BEHALF OF Q CYBER TECHNOLOGIES LTD. MORE INFORMATION IS ON FILE WITH THE DEPT. OF JUSTICE, WASHINGTON, DC.
